TERMS OF ACCEPTANCE

When you seek chiropractic care and we accept you for such care, it is essential for both of us to work toward the same goal.

Chiropractic care has one goal, producing proper spinal and nerve function. It is important you understand that this is our objective and how we go about achieving it.

HEALTH: A state of optimal physical, mental and social well-being, not merely the absence of disease.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal exam, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

I _____ have read and fully understand the above statements.

I hereby accept chiropractic care on this basis.
