Imagine eating whatever you wanted with the security that it won't result in an allergic reaction...or bending down without back pain...or losing those 10 pounds that are making you depressed and sluggish...or finally quitting smoking and avoiding the terrible withdrawal symptoms.

Start Living Stress-Free and Pain-Free!

Tell your practitioner you are interested in the **AURA PTL II Clinical Program**...and start being SMART about managing your health!

HOW IT WORKS

The AURA PTL II Clinical Program integrates the best practices of the following modalities:

Laser Therapy:

Light applied on the body at specific points by a laser has been clinically proven to have powerful healing effects. When light is introduced, it carries frequencies to the cells which communicate through the body to the brain, causing the release of natural chemicals which reduce stress and promote healing.

Acupoint Stimulation:

Acupoints are where peripheral nerves enter a muscle or where the nerve joins with bone. When they are stimulated, as with a laser, they activate the meridian or the body's energetic system to bring about relief and balancing and to promote healing.

Substance Specific Stress Reduction:

Stress is often caused by an inappropriate neurological reaction to environmental triggers, sometimes known as an allergy. The AURA PTL II incorporates targeted stress-inducing substances into the light therapy which serve to break these negative associations and painlessly eliminate the debilitating symptoms caused by this response cycle.

Homeopathy:

Homeopathy utilizes the minimum physiological dose of natural healing substances matched to the patient's symptoms to activate the body's innate restorative powers. The AURA PTL II Clinical Program integrates comprehensive homeopathic remedies into its protocols to optimize therapeutic results.

Our Therapeutic Process:

- 1) A customized care plan, which includes low level light therapy, is developed to address your most pressing concerns.
- 2) Laser therapy sessions take less than ten minutes and typically consist of 3 to 10 visits. Most people begin to see results after the first session.
- 3) A supplementation plan is designed to optimize healing and work in conjunction with other therapeutic remedies.
- 4) Creation of a maintenance program to ensure your long-term health and wellness goals are reached and sustained.

Benefits of the AURA PTL II Program:

- Noninvasive FDA-cleared laser therapy to reduce pain and inflammation
- Customized homeopathic and supplementation program to enhance therapeutic outcomes
- Personalized long-term plan to maintain long-term wellness
- Painless: no needles or dietary restrictions
- Laser sessions requiring only ten minutes
- No side effects, no down time, no pharmaceuticals
- Affordable payment plans
- Effective and long-lasting results

Read what some patients and doctors have to say:

LaVerne, Sonora, CA

For the past 5 years, I have not been well. I saw a lot of doctors and paid for lots of prescriptions; they did not help. I had allergies, intestinal pains and cramps. I had rheumatoid arthritis for 10 years and was on prednisone. I had absolutely NO energy or stamina. I used to take 8 prescriptions a day; I now take 3 and no more prednisone. After treatment with the AURA PTL II, these symptoms have ALL been eliminated.

-Patient of Dr. John Zilliox, D.C., Buffalo, NY

My husband is 70 years old and was taking Ambien every night to sleep; for chronic constipation, he was taking Metamucil. He had a PSA of 7. After one laser visit in conjunction with taking the biophasic homeopathic remedy, he slept two nights in a row with no medication and no constipation. After four laser visits, his PSA is less than four. He never felt better. In fact, he's going to Germany tomorrow which never would have happened a month ago.

-Gordon Smith, Lacarne, Ohio

On Wednesday I suffered from acute lower back pain due to overuse/strain. I was unable to bend forward or walk. I used the laser protocol for inflammation and back pain, and I immediately felt better. Over the next four days I drove 20 hours and the pain did not reoccur. I'm grateful to personally experience the healing effects of the AURA PTL II and truly know that I am helping my patients.
