

THE RESULTS ARE IN,
NON/SURGICAL SPINAL
DECOMPRESSION AT
SOUTHWEST SPINE
CENTER IS
CHANGING LIVES!

See what some of my local
patients are saying:

"I went through physical therapy for 3 years, 2 different chiropractors, 2 different pain clinics with minimal success. I even made a visit to the Cleveland Clinic but after all the pain shots I still had no relief. This device after 3 visits took my pain almost entirely away from my back."

- Jamie A.
Centerville, MI

"I can only say how wonderful the treatments were, how great the results are and how free I am to live my life again without fear from pain!"

- Peggy M.
Sturgis, MI

"Thank you Dr. Awwad and staff for helping me get my life back."

- Kathy A.
Colon, MI

"I was taking Tramadol and muscle relaxers and tried physical therapy and nothing helped. After 2 weeks of spinal decompression I now have no pain going down my leg and I can bend again. I'm just really excited the pain is gone."

- Kathy B.
Centerville, MI

"When beginning treatment the pain was an 8+ on a 0/10 Scale. Now after several sessions on the decompression machine, a few simple exercises and 60 oz. of water a day my pain level is now at a very low 1/10. Cannot believe the relief I have experienced in these past few weeks!"

- Robert S.
Colon, MI

I would definitely recommend non-surgical spinal decompression to friends and family. It saved me from surgery and possibly a life-long problem with my back.

- Jesse A.
Sturgis, MI

I was off work 5 months before the decompression therapy, it gave me my health and life back. If you are trying to stay away from surgery like me, this therapy was very beneficial.

- Mike K.
Three Rivers, MI

It got better by far. It's a miracle treatment. If it wasn't for you, I don't know what I would do.

and
Non-Surgical
Spinal
Decompression

More patient testimonials:

My husband and I were sent to Kalamazoo to see a surgeon after being diagnosed with a 12mm herniated disc in my lower back. He wanted to put screws and rods in my back and that was not going to happen. I then heard about decompression therapy at Dr. Awwad's office in Colon. I now have no more pain in my back! I must say this procedure works. Southwest Spine Center and Dr. Awwad are the best at what they do.

- Tracy Z.
Burr Oak, MI

Dr. Awwad's Non-Surgical Decompression program has been an amazing experience, life changing. I'm doing more things now than I could even before I injured my back. The surgeons said it was going to be at least 6 months minimum down time and up to 9 months with back surgery. I am so glad I chose a Non-Surgical Option.

- Jim H.
Constantine, MI

"I had 6 bulging discs. All my pain is completely gone!"

- Tony G.
Howe, IN

After physical therapy and injections didn't work the doctors wanted to put a spinal stimulator in my body. I knew there had to be another option.

I am so glad I heard about Dr. Awwad's office and his non-surgical approach. I highly recommend decompression. It beats doing surgery and it is well worth it.

--Terri M.
Sturgis, MI

So thankful for Dr. Awwad and staff. If not for his recommendation of decompression treatment, I would not have been able to enjoy a trip I earned from my own company to Ireland. A few months ago I could barely move and my primary physician wanted to send me to a surgeon. I wanted another opinion and was glad I got it. This week I walked all around the beautiful countryside of Ireland and decided to take an extra day upon arriving back to shop the Magnificent Mile in Chicago. I can't believe the difference in the quality of life I am experiencing. For months I dreaded leaving the house and avoided it at all costs due to pain, and now after the treatment I am able to enjoy the adventure of life again.
