- Disc Problems
- Back Pain
- Acute/Chronic Pain
- Sports Injuries
- Golf Injuries
- Tennis Injuries
- Accident Injuries
- Carpal Tunnel
- Scoliosis
- Arthritis
- Knee Joint Pain

Dear prospective patient and friend,

Allow me to introduce myself and explain my philosophy of health care. My practice is that of chiropractic. It is my belief that your health care should be thorough, gentle, caring and personal.

If you decide to come in for an exam and consultation, your findings will be carefully studied and a report will be scheduled. An explanation of your condition will be given and the appropriate Chiropractic treatment recommended. At this point, any questions and fees will be clearly explained.

I like to function as your personal Chiropractor and I am comfortable treating children, adults, and families of any lifestyles or persuasions.

With regards to my background, I am a graduate of College of Marin obtaining two degrees, both in Science and Arts. I am a 1983 graduate of Palmer College of Chiropractic West in Sunnyvale. I was the 1985-1988 secretary of the North Bay Society of the California Chiropractic Association. In 2000, I became Board Certified as an Anti-Aging Health Practitioner to enhance the quality of life as we get older. I am a native of Marin, currently lecturing to industries, businesses, and sports facilities throughout the greater Bay Area and Marin.

I am an active sports participant of the running and cycling world. Due to my sports medicine background, I have had extensive experience working with top level athletes in these fields, including competitive weightlifting. In conjunction with sports medicine, I have an excellent nutrition background which will further benefit my care and treatment of you.

Again, welcome. It will be an honor and a privilege to serve you.

Sincerely yours in good health,

Kent G. Carlomagno, D.C.

Dr. Carlomagno currently lectures to industry, businesses, and sports facilities throughout Marin on topics such as the Heimlich maneuver, how to lift, stress management, sports nutrition, and health/wellness.
