

PAIN RELIEF

Rapid cooling treatment has a multitude of pain relieving benefits.

ANTI-INFLAMMATORY

- Inhibits the incidence of inflammations.
- Represses inflammatory signs and symptoms of dermatitis and other inflammatory diseases.

RHEUMATOID DISEASES

- Alleviates joint pain and symptoms associated with arthritis, tendinitis, osteoporosis and chronic back and neck pain.
- The short-term relief of pain allows an intensification of physiotherapy and occupational therapy.
- Clinical studies confirm the inactivation of the collagenase enzyme during Cryotherapy, which decreases the tendon tissue in rheumatic diseases.
- Leads to restoration of motor functions.
- Studies show a significant reduction of pain over a two month period.
- Cryotherapy is now a standard part of comprehensive treatment of rheumatologic diseases in European medicine.

FIBROMYALGIA

- Blood tests indicate that the immediate analgesic effects of skin cooling last for weeks, suppressing heightened pain responses.

INJURY THERAPY

- Promotes the accelerated healing of muscles, tendons and joints.
- Dramatically reduces recovery time post surgery and injury.
- Inhibits inflammations and reduces pain and swelling.
- Studies show that Whole Body Cryotherapy reduces sports haemolysis and prevents the physiological impairments derived from sport haemolysis.

OTHER REPORTED PAIN BENEFITS

- Decreases Muscle Soreness
- Treatment of Osteoporosis
- Heals Nerve Damage
- Treatment of Psoriatic Arthritis
- Treatment of Chronic Pain Syndromes
- Multiple sclerosis
- Chronic pain management (migraines, arthritis & more)
- Increased blood circulation
- General wellness

HEALTH AND BEAUTY

This seemingly unusual approach offers a wealth of aesthetic advantages.

WEIGHT LOSS

- Facilitates caloric deficit that inevitably leads to reduction in fat.
- Improves blood circulation, increases muscle tone, resulting in passive weight loss.
- Helps restore proper body fat distribution.

CELLULITE-REDUCTION, ANTI-AGING & SKIN REJUVENATION

- Triggers an increased production of collagen, resulting in smoother, tighter, more even skin tone, reducing visible signs of aging.
- Improves the appearance of scars and fine wrinkles.
- Improves skin elasticity and decreases appearance of cellulite.
- Speeds up the natural biological cell regeneration process, efficiently eliminating dead cells in favor of new ones.
- Expels toxin deposits, leaving skin radiant with natural nutrients.

PSORIASIS, DERMATITIS AND ECZEMA

- Fights the underlying causes of the disease and its development by regulating and normalizing growth of skin cells.
- Halts the autoimmune process of excessive cell growth in the skin with no side effects.
- Reduces recurrence of inflammations.
