INFORMED CONSENT WAIVER & AUTHORIZATION TO TREAT

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working toward the same objective. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxations. Our chiropractic method of correction is by specific adjustments of the spine and joints of the body.

Health: A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: A subluxation is a complex of functional and/or structural and/or pathological articular changes that compromise neural integrity and may influence organ system function and general health.

We obtain the necessary clinical information to establish an accurate impression of the person's health status by utilizing diagnostic and treatment procedures that are supported by the best available evidence, clinical experience or consensus-driven guidelines and are in accordance with legal standards of care. However, we do not offer to diagnose or treat a disease or condition other than vertebral subluxations. Nor do we offer advice regarding treatment prescribed by others. However, if during the course of a chiropractic spinal examination we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we follow a cooperative patient management with referral to communication and collaboration with other health care providers to ultimately benefit the patient.

Practice Objective

Our office recognizes and places particular attention on the adjustment, correction and prevention of the subluxation complex by facilitating neurological and biomechanical integrity in the preservation and restoration of your health and wellness.

I, the undersigned, have been informed by the participating treating doctor of Chiropractic (D.C.) that he/she is/are a licensed chiropractor, and having been informed by such Doctor as to the benefits and potential risks of chiropractic and radiological treatment, hereby consent to such treatment. I hereby agree to hold Heartlight Chiropractic, their affiliates, all associated sanctioned events and/or endorsement levels; any and all associated co-sponsorships of any level or participation; free and harmless from any liability, claims, demands, or suits for damages from any injury or complications which may result from such treatment.

This document is binding and the parties hereto intend this Informed Consent Waiver and Authorization to Treat to be binding and insure the benefit of their respective principals, heirs, executors, administrators, successors, and assigns; includes any and all my successors and/or heirs. I further state that should complication arise from such agreed treatment with treating Doctor of Chiropractic that such individual and myself will be the only parties to engage in any and all recourse should that need arise foregoing any and all others.
