

## **Facial Acupuncture Rejuvenation (FAR) Program**

***The FAR Program is for those who are seeking natural alternatives to slow the signs of aging, but don't want to undergo surgery or inject chemicals into their face.***

*There are over 50 muscles in your face that are interconnected. Overtime, all muscles gradually lose their tone, which may lead to sagging and looking tired. Acupuncture stimulation encourages facial muscles to tighten and energize, stimulation may enhance collagen production, which can help the face look healthier with a revitalized youthful appearance.*

*The needles are the size of a human hair and do not hurt like ordinary needles.*

*We recommend a course of treatment from 10 – 15 sessions for most people. Each treatment is between 15 and 45 minutes. It takes 6-12 treatments for most people to begin to see a difference in their appearance. Most people require a maintenance treatment that varies based on their individual needs.*

***Dr. Kirch and Dr. Beaumont believe Facial Acupuncture is something you do for yourself without having to worry about the side effects of surgery or chemicals.***

## *Acupuncture Meridian Therapy*

*Acupuncture is an alternative medicine originating in China that treats patients by manipulating thin needles that are inserted into acupuncture points in the skin. According to Traditional Chinese Medicine, stimulating these points can correct imbalances in the flow of energy (Qi) through channels know as Meridians.*

*Current scientific research indicates that traditional forms of acupuncture are more effective than placebos in the relief of certain types of pain and post-operative nausea.*

### *Endorsements*

*Acupuncture's use for many conditions has been endorsed by the United States **National Institutes of Health**, the **National Health Service** of the United Kingdom, the **World Health Organization** and the **National Center for Complementary and Alternative Medicine**.*

*Years of research continues to support that acupuncture is safe when administered by trained practitioners using sterile needles, laser, and/or microcurrent and carries a very low risk of adverse effects.*

*Drs. Perry Kirch and Marion Beaumont use traditional acupuncture therapy with needles, but also use additional techniques, including Laser and Microcurrent to enhance the body's ability to naturally heal, correct, and repair.*

*Treatment sessions range from 15 – 45 minutes depending on each patient's individual needs. Every session is tailored to the needs of every patient.*

*\$87 - \$127 per Session*

## *Nutritional Recommendations*

*We encourage “clean eating”*

*We are what we eat. Therefore, for the body to look and function the best we advise eating the best foods.*

*Increasing organic foods and limiting prepackaged/processed foods.*

*We have a list of supplements/foods we suggest to support good cellular health and to enhance how your body functions, looks and feels.*
