## Terms of Acceptance

The goal of our office is to enable patients to gain control of their health. To attain this we believe communication is the key. Please read the following and if you have any questions please feel free to ask one of our staff members.

#### **Informed Consent:**

The chiropractic adjustment, clinical procedures, physical therapy procedures, and rehabilitation exercises are usually beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury, such as fractures, muscular strain, ligamentous sprain, intervertebral disc injury, nerve injury, or stroke. The doctor, of course, will not give any treatment or care if he determines such care may be contra-indicated. It is the responsibility of the patient to disclose any known latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the chiropractic physician. The chiropractic doctor provides a specialized health care service and is available to work with other types of providers in your health care regimen. I understand that if I am accepted as a patient by Long Chiropractic Office, I am granting authorization to proceed with treatment that Dr. Long deems necessary. Furthermore, any additional questions I may have regarding chiropractic treatment will be answered upon my request.
