Bright Star's Philosophy

We truly live by our motto: "...every child is a **BRIGHT STAR** on the horizon of tomorrow."

These formative years are the most crucial in every child's life. Therefore, the most important part of our program is guiding each child in building a solid foundation of self-esteem and confidence...from this, other good things will naturally flow: such as independence, responsibility and maturity. Good social habits, friendliness, kindness, cooperation and communication will develop as well.

When a child is treated with respect, they learn to respect themselves and others.

We are dedicated to giving your child the individual attention, approval and affection that he or she needs to build this foundation for a happy and successful future! Our goal is a child who will say, "**I LIKE BEING ME!**"

Learning is an adventure!

At **BRIGHT STAR**, your child discovers the joys of learning in a happy, secure and totally non-competitive atmosphere.

We encourage creativity and curiosity. As the children begin to explore the mysteries of the beautiful world around them, an excitement is created which is the foundation of learning. This enjoyment will last a lifetime!

We believe in letting each child work individually at his or her own pace. Learning is geared toward the interest of each child. Individual attention is given to those who have special needs and to the gifted learner. The highest standard of child centered education will be offered to fit each child's learning style. We also specialize in working with families that have concerns dealing with adoptions and languages other than English.

We are helping to ensure that every child's Bright Star will shine!
